

Groves Incorporated

We take care of the gear that takes care of you!

The Original **TURNOUT GEAR STORAGE SYSTEM**

Designed & Sold by Firefighters at our Distributors Nationwide!

Ready Rack's corporate headquarters is located in Woodstock, IL. There we inventory, assemble, and package the various components that make up our products for shipment to our customers. Groves Incorporated partners with manufacturers in the United States and around the world. By using multiple sources, we are able to get the most competitive pricing for our customers, while maintaining the highest quality.

When you purchase a Ready Rack system through our nationwide fire service distribution network, you are supporting firefighters who often work second jobs as expert sales consultants. Our business plan allows these heroes to earn extra money to support their families and provides you with real hands-on product knowledge.

Visit www.groves.com to use our wall space calculator.

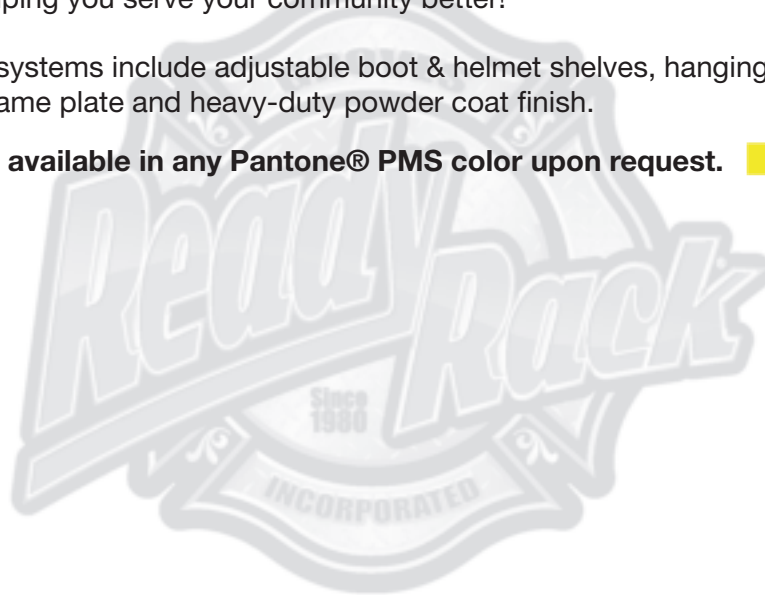

Red Rack™

Designed for maximum air circulation, Red Rack™ and Dry Kwik accessories help PPE and gear dry faster and last longer. Our system creates maximum organization which helps shave precious extra seconds off your response times; helping you serve your community better!

All Red Rack™ Storage systems include adjustable boot & helmet shelves, hanging pole, adjustable apparel hooks, label holder for name plate and heavy-duty powder coat finish.

Red Rack products are available in any Pantone® PMS color upon request. 

The Red Rack Advantage!

Structurally superior design does not require rear grid.

- Red Rack is designed to stand up to the rugged demands of the Fire Service
- Tubular steel design is the strongest configuration on the market and does not require a rear grid
- SAFER! Open back design allows easy access to your station's building code approved electrical outlets
- Easier to install! Design does not obstruct switches or outlets
- Maintenance friendly! Clean and / or paint walls without removing the rack

Wall Mounted Red Rack™

Wall Mounted Red Rack™

Available in 20" wide or 24" wide sections, units are 20" deep and 72" tall. **Red Racks can be ordered in virtually any wall run length thanks to our exclusive modular design.**

Ready Rack®

Wall Mounted Ready Rack®

Ready Rack® is available in a wide range of models, New Tech Wall Mounted, Freestanding and Mobile. Choose from standard units, or customize the installation to fit your station's wall or floor space.

Ready Rack® components are manufactured with a durable, heavy-duty zinc chromate finish and protected with a special clear-coat sealer. All units are supplied with two levels of open wire shelving. Full length grid dividers separate individual sections between top and bottom shelf levels and provide a 4" tall divider on the top shelf level. Grid dividers are also supplied for ends of the unit. Each individual section is supplied with two hanging apparel hooks, one snap on plastic name plate, and a hanging pole that runs the length of the unit.

Ready Rack

S.A.M. - Search and Marking Tool

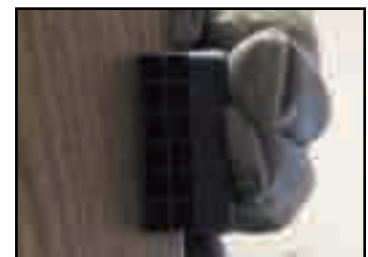

Meet S.A.M. The new safer Search And Marking tool from Groves Incorporated.

S.A.M. was designed to hold doors wide open during room to room searches. It lets you mark doors with a highly visible crayon at entry and after you've cleared the room.

Simply approach the door and test for heat as you would normally do. Use the high-visibility crayon to mark the door with a single slash to indicate a search in progress. Upon opening the door, place S.A.M.'s high tension steel hook over the lowest hinge. The high impact strength molded body fills the space between the door and jamb to prevent closing. Search the room and exit, remove the S.A.M. and complete the X to mark the room as cleared.

B.E.T. - Back-Up Entry Tool

- Holds security doors at multi-unit buildings open.
- Lets your back-up respond without being "buzzed in."
- Automatic clamping device holds the B.E.T. on the door.
- Fits a wide range of doors from standard entry to security to fire rated.
- Built to last from impact resistant materials.

Super Strap Emergency Tow & Recovery Strap

- 2" wide strap stocked in 15' and 25' lengths, with custom sizing available.
- Strap has a minimum 20,000 pound breaking strength.
- Compact size can easily fit into most RIT equipment bags and backpacks.
- Does not need any hooks or clamps strap intertwines within itself for a secure lock.
- Anti-static, resin, latex finish to prevent abrasion.
- Quickly attaches to equipment for heavy object removal, and for the clearing of heavy debris from the fire ground.
- Great for off-road recovery and the moving of heavy equipment.

Model#	Length
SS-15	15'
SS-25	25'

* Can be ordered in any custom length

Groves Custom Vehicle Recovery Strap Model # GCVRS

- 30' recovery strap, made from 3" wide heavy duty nylon.
- 62,500 capacity MBS (Minimum Break Strength).
- Berry Compliant.
- Heavy duty eye hooks with latch.
- NSPL finish for abrasion reduction.
- Weight approximately 30 pounds.
- Designed for quick removal of heavy disabled equipment and debris from various terrain types and conditions.
